

CONTAMINATION CONTROL OF CLEANROOMS

Contamination Control of Cleanrooms

- Portable Particle Counters for validation , monitoring & filter integrity
- Handheld Particle Counters
- Remote Particle Counters for monitoring
- Remote Active Air Samplers for monitoring
- Real-time Viable Particle Counters for aseptic areas
- Condensation Particle Counters for production of electronics - semiconductors
- Facility Monitoring Systems (FMS) for particles, viable and environmental parameters
- Pressura - Accurate wall through-in Differential Manometers
- Portable differential manometers
- Accubalance Balometer

- Handheld Air Sampler
- Microbial Sampler for Compressed gases (Pinocchio)

- Aerosol Dilutors
- Aerosol Generators
- Fog Testers

- Air Flow Mapping Systems (Fog generators)
- Surface Particle Counting Systems

Cytotoxic Safety Cabinets / Biosafety Cabinets

- Waste sealing system
 - Personal Protective Equipment - PPE
 - Chemical Protection Gloves
 - Protective Coveralls / Protective Overalls - Certified PPE
 - Cleanroom clothing - certified protective clothing
 - Protective Clothing - Certified PPE
 - Pandemic Protection Kits
 - Respiratory Masks / Face Masks
 - Safety Goggles - Safety Glasses
 - Product brochure - Personal protective equipment and consumables
 - Expert Knowledge Protective Clothing Material
 - Safe hygiene with MRSA - expert knowledge
 - Surface disinfection - Expert Knowledge
-
- Glove testers
